The childcare centre locations and number of licensed places are as follows:

Each centre is leased to and managed by Peppercorn Holdings No. 2 Pty Ltd, which on 23 December 2004 became a wholly owned subsidiary of A.B.C. Learning Centres Limited ("ABC").

STATE OF AFFAIRS

During the year the Trust entered into agreements to sell all of the CPT-2 childcare businesses to a subsidiary of Ramsay Bourne Holdings Pty Ltd (RBH). Each childcare business will settle upon the expiry of the current management lease in July 2007.

The agreement with RBH also covers the sale of the freehold properties which from July 2007 will be leased to RBH on a fixed rental basis. These properties, which are covered by put and call options, will settle no later than 6 months after the sale of the childcare businesses that is, no later than January 2008. In that period the Trust will receive rental income from RBH.

Other than disclosed elsewhere in this report, the opinion of the directors there were no other significant changes in the state of affairs of the Trust that occurred during the financial year under review.

REVIEW AND RESULTS OF OPERATIONS

The result for the year to 30 June 2006 was a net profit after income tax of \$538,951 (2005: \$345,960).

The result includes an after tax unrealised gain of \$698,226 brought to account in respect of revaluing investment properties at fair value. This is the first financial report prepared according to Australian equivalents to International Financial Reporting Standards ("AIFRS"). Under AIFRS changes in value of investment properties are recognised in income rather than in the asset revaluation reserve as was previously the case.

The performance of the centres over the year has been very poor. ABC has advised that in their experience this has been the worst year on record for childcare in Queensland. They attribute this performance to a number of factors including:-

- strong competition, particularly in North Queensland and parts of Southeast Queensland, has adversely affected occupancy levels and put constraints on fee increases;
- wage increases for centre staff in Queensland has put pressure on centre profit margins;

**CHILDCARE PROPERTY TRUST NO 2
DIRECTORS' REPORT
FOR THE YEAR ENDED 30 JUNE 2006**

- the introduction of the preparatory year in an increasing number of Queensland schools has affected demand for childcare;
- increase in family day care funding has also affected demand for centre- based care.

The Responsible Entity continues to meet regularly with ABC representatives to discuss the performance of the Trust's centres and their strategies to improve trading.

As stated in "Principal Activities" of this report an Agreement to sell the childcare centres was entered into during the year. The results for the year were not impacted by this Agreement to sell.

The distribution for the year to 30 June 2006 is 2.5 (2005: 6.00) cents per unit. The distribution is made up of 1.90 cents per unit franked to an average level of 85% and .60 cents as a tax deferred component.

Distributions paid or declared by the Trust since the end of the previous financial year were:

	\$

EVENTS SUBSEQUENT TO BALANCE DATE

Other than disclosed elsewhere in this report, there has not arisen in the interval between the end of the financial year and the date of this report, any item, transaction or event of a material and unusual nature likely, in the opinion of the directors, to affect significantly the operations of the Trust, the results of those operations, or the state of affairs of the Trust, in future financial years.

INTERESTS OF THE RESPONSIBLE ENTITY

Interests of both DDH Graham Limited and its directors in the Trust are disclosed in Note 16 to the financial statements.

LIKELY DEVELOPMENTS

The trust's initial five year term is due to expire in June 2007. The sale of the childcare centres, as stated elsewhere in this report will enable the unitholders to exit the trust in line with the term of the Trust.

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The Childcare Property Trust ("the Trust") is a registered managed investment scheme incorporated in Australia under the Corporations Act 2001. The financial report of the Trust is for the year ended 30 June 2006.

The financial report was authorised for issue by the directors of the Responsible Entity on 25 October 2006.

a) Statement of Compliance

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards ('AASBs') adopted by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001. International Financial Reporting Standards ('IFRS') form the basis of Australian Accounting Standards ('AASBs') adopted by the AASB, and for purposes of this report are called Australian equivalents to IFRS ('AIFRS') to distinguish from previous Australian GAAP. The financial report of the Trust also complies with IFRS and interpretations adopted by the International Accounting Standards Board in their entirety.

This is the Trust's first full year financial report prepared in accordance with Australian Accounting Standards, being AIFRS, and AASB 1 *First-Time Adoption of Australian Equivalents to International Financial Reporting Standards* has been applied. An explanation of how the transition to AIFRS has affected the reported balance sheet, income statement and cash flow statement of the Trust is provided in Note 20.

b) Basis of Preparation

The Financial report is presented in Australian dollars.

The following standards and amendments were available for early adoption but have not been applied by the Trust in these financial statements:

- AASB 7 *Financial instruments: Disclosure* (August 2005) replacing the presentation requirements of financial instruments in AASB 132. AASB 7 is applicable for annual reporting periods beginning on or after 1 January 2007.
- AASB 2005-10 *Amendments to Australian Accounting Standards* (September 2005) makes consequential amendments to AASB 132 *Financial Instruments: Disclosures and Presentation*, AASB 101 *Presentation of Financial Statements*, AASB 114 *Segment Reporting*, AASB 117 *Leases*, AASB 133 *Earnings per Share*, AASB 139 *Financial Instruments: Recognition and Measurement*, AASB 1 *First-time Adoption of Australian Equivalents to International Financial Reporting Standards*, AASB 4 *Insurance Contracts*, AASB 1023 *General Insurance Contracts* and AASB 1038 *Life Insurance Contracts*, arising from the release of AASB 7. AASB 2005-10 is applicable for annual reporting periods beginning on or after 1 January 2007.

The Trust plans to adopt AASB 7 and AASB 2005-10 in the 2007 financial year.

The initial application of AASB 7 and AASB 2005-10 is not expected to have an impact on the financial results of the Trust as the standards and the amendments are concerned only with disclosures.

The following standards are not relevant or applicable to the Trust and therefore have no impact.

- AASB 2004-3 amendments to AASB 1 *First-time adoption of AIFRS* AASB 101 *Presentation of Financial Statements* AASB 124 *Related Party Disclosures*.
- AASB 2005-1 amendments to AASB 139 *Financial Instruments: Recognition and Measurement*.

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. These accounting policies have been consistently applied.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. There were no key adjustments during the year which required accounting estimates and judgements.

The accounting policies set out below have been applied consistently to all periods presented in the financial report and in preparing an opening AIFRS balance sheet as at 1 July 2004 for the purposes of the transition to Australian Accounting Standards under AIFRS.

**CHILDCARE PROPERTY TRUST NO 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2006**

c) Revenue and expenditure recognition

(i) Lease income

Lease income is brought to account on an accrual basis and, if not received at balance date, reflected in the Balance Sheet as a receivable.

(ii) Valuation of Investment Properties

Unrealised gains and losses on investment properties are recognized in the Income Statement.

(iii) Interest Income

Interest income is recognised in the income statement as it accrues using the original effective interest rate calculated at the acquisition or origination date and if not received at balance date, is reflected in the Balance Sheet as a receivable.

(iv) Responsible Entity's remuneration

Under the Trust Constitution, the Responsible Entity is entitled to a fee amounting to 0.125% of the Total Tangible Assets of the Trust for each quarterly period together with a fixed component of \$61,800 per annum subject to CPI increase.

(v) Operator's remuneration

In accordance with each of the property leases, the lessee and operator of the childcare centres, Peppercorn Holdings No. 2 Pty Ltd, is entitled to receive a base management fee of \$2,004 per centre operated per month (indexed by the CPI) plus 2% of gross revenue and 10% of net operating income (after deducting the base fee and 2% of gross revenue).

The operator's remuneration is deducted before lease income is paid to the Trust and as a result is not included as an expense in these financial statements.

All expenses are brought to account on an accrual basis.

d) Investment properties

Investment property, which is property held to earn rentals and/or for capital appreciation, is initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Gains or losses arising from changes in the fair value of investment property are included in profit or loss in the period in which they arise.

e) Non-current assets held for sale

Immediately before classification as held for sale the measurement of the assets is brought up to date in accordance with applicable accounting standards. Upon initial classification as held for sale, non-current assets are recognised at fair value.

f) Income tax

The Trust is taxed on a similar basis to a company. Accordingly, the Trust is subject to income tax at the prevailing corporate rate.

Distributions to Unitholders out of profit are treated as dividends for tax purposes and may be franked to the extent franking credits are available. Thus, such distributions are taxed at an investor's marginal tax rate subject to the level of franking credits attaching to the distributions. Distributions which exceed the profit of the Trust are treated as a return of capital for tax purposes. Returns of capital are not assessable but reduce the Unitholder's cost base for the purposes of determining any liability for capital gains tax on disposal of the units.

**CHILDCARE PROPERTY TRUST NO 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2006**

(i) Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

(ii) Deferred tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit. Furthermore, a deferred tax liability is not recognised in relation to taxable temporary differences arising from goodwill.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Trust expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Trust intends to settle its current tax assets and liabilities on a net basis.

(iii) Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in the income statement, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill or excess.

g) Plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is calculated on a straight line basis so as to write off the net cost or other revalued amount of each asset over its expected useful life to its estimated residual value. The estimated useful lives, residual values and depreciation method is reviewed at the end of each annual reporting period.

The following estimated useful lives are used in the calculation of depreciation:

- Plant and equipment 4 – 20 years

Depreciation rates and methods shall be reviewed at least annually and, where changed, shall be accounted for as a change in accounting estimate. Where depreciation rates or methods are changed, the net written down value of the asset is depreciated from the date of the change in accordance with the new depreciation rate or

**CHILDCARE PROPERTY TRUST NO 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2006**

method. Depreciation recognised in prior financial years shall not be changed, that is, the change in depreciation rate or method shall be accounted for on a 'prospective' basis.

h) Borrowing costs

Borrowing costs are recognised as an expense when incurred.

i) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in banks and investments in money market instruments, net of outstanding bank overdrafts. Bank overdrafts are shown with borrowings in current liabilities in the balance sheet.

j) Trade receivables, loans and other receivables

Trade receivables, loans and other receivables are carried at amortised cost, less impairment losses.

k) Impairment of assets

At each reporting date, the Trust reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Trust estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

Any excess of the asset's carrying value over its recoverable amount is expensed to the Income Statement.

l) Trade and other payables

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether or not billed to the Trust. Trade accounts payable are normally settled within 30 days.

m) Borrowings

Borrowings are recorded initially at fair value, net of transaction costs.

Subsequent to initial recognition, borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit and loss over the period of the borrowing using the effective interest rate method.

n) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Balance Sheet.

**CHILDCARE PROPERTY TRUST NO 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2006**

Cash flows from operating activities are included in the Cash Flow Statement on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

o) Segment Reporting

A segment is a distinguishable component of the Trust that is engaged either in a business segment or based on the Trust's asset clauses within a particular geographical segment based on the geographical location of the assets, which is subject to rules and rewards that are different from those of other segments.

p) Earnings per unit

(i) Basic earnings per unit

Basic earnings per unit is calculated by dividing the profit attributable to equity holders of the Trust, excluding any costs of servicing equity other than ordinary units, by the weighted average number of ordinary units outstanding during the half-year.

(ii) Diluted earnings per unit

Diluted earnings per unit adjusts the figures used in the determination of basic earnings per unit to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary units and the weighted average number of units assumed to have been issued for no consideration in relation to dilutive potential ordinary units.

q) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

**CHILDCARE PROPERTY TRUST NO 2
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2006**

Recognised financial instruments

Monetary financial assets and financial liabilities not readily traded in an organised financial market are valued at the present value of contractual future cash flows on amounts due from customers (reduced for expected credit losses) or due to suppliers. Cash flows are discounted using standard valuation techniques at the applicable market yield having regard to the timing of the cash flows. The carrying amounts of bank deposits, receivables, other debtors, accounts payable, bank loans, lease liabilities and distributions payable approximate net fair value.

Net fair values

Recognised financial instruments

The Trust's financial assets and liabilities included in current and non-current assets and liabilities on the Balance Sheet are carried at amounts that approximate net fair value.

Unrecognised financial instruments

The Trust has no off-balance sheet financial instruments.
